

SUPER TYPE

Product Description:

One of our most popular products, this 0.4mm thick material has a strong PVC carrier which reduces the risk of axis problems. Its synthetic adhesive is compatible with many coating types and removes cleanly every time from both organic and mineral lenses. Synthetic rubber provides good adhesion on coated lenses

Physical Properties:

Adhesive	Synthetic Rubber
Carrier	Vinyl 0.38mm
Liner	PE Coated Kraft paper
Shelf Life	12 months from dispatch when stored in original cartons at 21°C and under 50% relative humidity

All standard shapes are available, and custom shapes can be provided upon request. Please visit our website for a list of standard shapes.

Edge-it®

Data and detail in this sheet were correct and up-to-date at the time of printing and are intended to provide information on our products and their possible applications. This sheet is not a specification and does not assure specific product characteristics or make reference to the suitability of the products for a definite application. Because Permanento cannot anticipate or control every application, we strongly recommend testing of this product under individual application conditions. In according with our policy of continuous improvement specifications may vary.
