

STEP™ GLS+

Product Description:

Special Torque-resistant Edging Pad, Green Lens Side+

This blocking pad is especially designed for Superhydrophobic lenses of the latest generation.

This PE foam pad features a unique internal reinforcement to prevent stretching and thus reduce axis problems. Moreover it is provided with two different adhesives. One side (dark green colour) has a special engineered adhesive that attaches to Super Hydrophobic coatings and the other side (black colour) has an adhesive specially for the block side. Both adhesives are clean removable.

Step GLS+ is easy to use and can be used with any lens edging machine and is available for fully automatic as manual edgers.

Directions for use:

Before use, make sure lens and block are free of moist, dust and grease.

- Lens side is dark green-coloured
- Block side is black-coloured

Note: This pad is only suitable for Super Hydrophobic or Oleophobic lenses

Physical Properties:

Adhesive:	Patented adhesive technology
Carrier:	High conformable reinforced closed cell PE foam
Total thickness:	0,94 mm +/- 15%
Liner Manual roll:	Top, PET film Bottom, White Glassine Paper
