

BLOKKIT AZURE

Product Description:

Blokkit Azure is a lined, highly conformable, blue lens block protection tape specifically designed to be used with alloy blocking systems on all types of lenses. Blokkit Azure holds securely to both the lens and the alloy blocking medium, preventing premature release during generation in both wet and dry processes, and does so on a variety of generating equipment. After surface generation the tape removes cleanly and easily.

Physical Properties:

Adhesive	Acrylic
Backing	Blue conformable filmic
Total thickness	0.12 mm
Elongation	450%
Adhesion	26 oz (plastic) ; 24 oz (glass)
Temperature resistance	From -40 °C to +110 °C
Shelf Life	12 months from dispatch when stored in original cartons at 21

Edge-it®

Data and detail in this sheet were correct and up-to-date at the time of printing and are intended to provide information on our products and their possible applications. This sheet is not a specification and does not assure specific product characteristics or make reference to the suitability of the products for a definite application. Because Permanento cannot anticipate or control every application, we strongly recommend testing of this product under individual application conditions. In according with our policy of continuous improvement specifications may vary.
