DATA SHEET

S.T.E.P™ II

Product Description:

S.T.E.P. II, is our improved successor of our bestseller S.T.E.P. **S**pecial **T**orque-resistant **E**dging **P**ad. This Lens Edging Pad features an improved internal reinforcement that prevents stretching and thus reduces axis problems. With its new high-tack acrylic adhesive, S.T.E.P. II is suitable for all kinds of lenses.

With our double tapped fingerlift technology this premium product allows an easy removal of the lens edging pad in one clean piece. The new developed high-tack adhesive ensures a secure hold during the edging process, resulting in precise and accurate Edging proces every time.

Whether you're working with standard, high-index, or polarized lenses, S.T.E.P. II offers superior torque-resistance and accuracy. Upgrade your lab's lens edging process with S.T.E.P. II and experience the lasting benefits of a premium product.

Directions for use:

Before use, make sure lens and block are free of moist, dust and grease.
